Brian,

Please find attached We Build the Wall's formal letter of intent. Attachments include:

1. DHS GIFT DONATION FORM 112-02
2. ALIGNMENT MAP
3. PROJECT RENDERING
4. HYDRO ANALYSIS
5. RAINFALL DATA

As we discussed at our meeting last week, we would

appreciate it if you team could review this package as quickly as possible. The NM SHPO has 30 days to review our report to them—a period that commenced on February 5, 2020. If your review could be completed within the same period, by March 6, that would be ideal.

Thanks your work on this. We look forward to contributing to our nation's border security and to advancing CBP's mission.

Kris

<(b) (7)(E) - WBTW - Final Wall Historical Survey Report.pdf>

Preliminary Report for the Archaeological Survey of a Section of Proposed Border Wall near (b) (7)(E), New Mexico

The archaeological survey of the proposed border wall location was conducted January 17th, 2020. The area inventoried extends (b) (7)(E) (b) (7)(E) though the portion of wall next slated for construction will be built in the (b) (7)(E)

(b) (7)(E)

No archaeological sites were found, but there are three historic border monuments in the surveyed area:

Monument (b) (7)(E) is an obelisk of stone and concrete with a smooth plastered concrete surface on a square concrete pedestal, all recently repainted white (Figure 1). The obelisk portion tapers from a wide base to a pyramidal top. Cast metal plaques in English and Spanish are/were embedded into the north and south faces (the north one is absent). The number (b) (7)(E) is inscribed into the east and west faces. Fragments of cement plaster and expanded metal litter the surrounding area.

(b) (7)(E)

Figure 1: Monument (b) (7)(E)

Monument (b) (7)(E) is an obelisk on square pedestal of cast concrete, all recently painted silver. The obelisk has parallel vertical sides and a pyramidal top. Cast metal official plaques in English and Spanish are riveted and embedded in the north and south faces (Figure 2). Separate plaques below are embossed with language admonishing against destruction are of cast metal similarly attached, and the number is embossed on its east face.

(b) (7)(E)

Monument (b) (7)(E) is a cast-iron obelisk bolted to a square concrete pedestal. The obelisk has slightly tapering sides and pyramidal top and plaques identical to those of Monument (b) (7)(E). The number is embossed on the east face only (Figure 3). The obelisk and top of the pedestal are painted silver while the pedestal remains raw concrete. The number is painted black.

Monument (b) (7)(E) was erected in the 1850s as part of a survey to mark and map the U.S.'s southern border following the signing of the 1848 Treaty of Guadalupe Hidalgo and the conclusion

Figure 2: Monument (b) (7)(E)

of the Mexican-American War. The effort resulted in 54 boundary survey maps finalized during the 1856-1857 Joint Boundary Commission meetings in Washington, D.C. A total of 52 such monuments were built between El Paso and San Diego.

When disputes over the exact location of the border became more frequent, a boundary resurvey was conducted between 1891-1894. An initial reconnaissance found that some of the previously established monuments were missing or in disrepair. The international resurvey team installed 206 additional monuments and employed a lettering sequence to avoid confusion with the existing monument numbers. Monuments (b) (7)(E) are two of these monuments.

The New Mexico State Historic Preservation Office has determined that the monuments are eligible for listing in the National Register because of their representation of the events surrounding the establishment of the boundary following the Gadsden Purchase and the Treaty of Guadalupe Hidalgo as well as subsequent events that took place along the border, for their distinctive obelisk form, and for the information that can be gleaned about past historical events in locations where there are camps or other archaeological sites associated with those events. Because the monuments are considered eligible, they need to be protected during any proposed undertaking or their damage or destruction mitigated in some way.

Monuments (b) (7)(E) lie along the route of the currently planned (b) (7)(E) border wall, while Monument (b) (7)(E) is to the (b) (7)(E) beyond the end of the (b) (7)(E) section (Figure 4). As has been implemented elsewhere, the plan for this segment is to build the wall 3 feet north of the actual border line (and, hence, 3 feet north of the monuments), with gates installed to provide access to the monuments. In this instance, because the monuments will remain undamaged and because there are no associated archaeological materials of any kind (e.g., the remains of a campsite associated with their construction) in the immediate vicinity, the monuments will experience no adverse physical impacts as a result of the construction of the wall.

The wall will adversely impact the monuments' integrity to some degree because it will change their setting, feeling, and association (though not their location, design, materials, or workmanship), but because they represent only a small proportion of the overall number of border monuments (even just of those in New Mexico), the impact is not sufficient to render the international border and the monuments not eligible for listing in the National Register, nor is it irreversible, so the overall impact is unlikely to be something that would require additional mitigation steps. With that said, it should be noted that upon review of the final survey report, the New Mexico State Historic Preservation Office may have additional requirements regarding protection of the monuments during construction of the wall.

Figure 3: Monument (b) (7)(E).

Figure 4: Map of project findings. IOs 1 and 2 mark discoveries of an isolated can and tin cup that are historic but not sufficient to be considered archaeological sites requiring protection.

Subject: Proposed Donation of Border Wall, (b)(7)(E) New Mexico

Mr. Kobach,

Thank you for your recent communication regarding We Build the Wall's (WBTW) proposed donation of border wall. It is my understanding that WBTW, a private entity, would like to start construction on approximately (b)(7)(E) of border wall in (b)(7)(E) New Mexico. Upon completion, WBTW would like to donate this wall as a gift to U.S. Customs and Border Protection (CBP). CBP has reviewed the information WBTW has provided to date regarding the proposed donation. To the extent that WBTW intends to make a formal donation offer to CBP, set out below is the additional information that should be included in the submission.

CBP would require this information in order to consider and potentially act upon WBTW's donation offer.

SUBMISSION PROCESS

In order to make a formal offer of donation or gift, WBTW must first submit a formal letter of intent to the Department of Homeland Security (DHS) and CBP. In order to properly evaluate WBTW's gift, CBP needs the information required by DHS Form 112-02. For your convenience, enclosed is a copy of DHS Form 112-02. Those requirements include a detailed description of the gift along with any donor's name and address, as well as any past, present, or pending matters and activities involving the Department and the circumstances regarding donation of the gift. Additionally, the Department's gift acceptance policies further require the donor's estimate of the gift's value, which for non-cash gifts should be the gift's estimated market value.

In addition to the items listed above, WBTW's submission should address the items listed below. The items listed below will assist CBP in its evaluation of WBTW's gift and/or any CBP authorization to construct on federal land that is under CBP's administrative jurisdiction. From our previous discussions, we understand WBTW has offered to fund all design and construction and all real estate and environmental documentation and permitting for the proposed project and will ensure the donation meets the U.S. Border Patrol (USBP) operational requirements.

ALIGNMENT MAP

WBTW must provide an alignment map that sufficiently identifies the location the proposed

border wall segment. The map will allow CBP to evaluate the proposed location relative to United States Border Patrol (USBP) operations. It is CBP's understanding, based on materials previously submitted by WBTW, that the proposed (b) (7)(E) wall project is (b) (7)(E). (Location coordinates – Start: (b) (7)(E)) Stop: (b) (7)(E)). For your convenience, enclosed you will find a map that shows CBP's understanding of the proposed project location. WBTW's submission should confirm this understanding and show precisely where the proposed wall will be situated.

DESIGN & CONSTRUCTION

As a part of its submission, WBTW must confirm that the proposed wall segment will adhere to the USBP Tactical Infrastructure (TI) Design Standards as the design criteria for the wall design and that WBTW will consult with USBP on any design and construction questions to ensure the wall meets the operational requirements of USBP.

Those design standards include the following requirements or conditions:

Design

(b) (7)(E), (b) (5)

Construction

- All wall should be constructed in accordance with the TI Design Standards.
- Regular communication with USBP personnel, to include providing a high-level milestone schedule, to ensure construction does not adversely impact operations.

- Consultation with USBP subject matter experts prior to start of design to discuss and incorporate such items as wall alignment, design criteria, construction criteria into the design.
- Consultation with USBP subject matter experts during preliminary design and prior to design completion to receive feedback regarding design progress.
- Regular meetings with USBP subject matter experts on a weekly basis but no less than once per month throughout construction of the wall to discuss progress, construction testing, questions and issues encountered by the contractor.

REAL ESTATE & ENVIRONMENTAL

WBTW's submission should also address real estate and environmental issues, to include the following:

Environmental

- Regarding the need for 404 permits under the Clean Water Act, WBTW has stated that the U.S. Army Corps of Engineers (USACE) "has no interest" in the proposed project areas, as there are no Waters of the United States that are within the proposed project area or elsewhere that will be affected by the proposed project. WBTW cites to a "hydro analysis" that was performed in making this determination.
 - WBTW should include a copy of the hydrological analysis and/or any delineation survey that was performed and copies of the correspondence with USACE showing its determination that no 404 or other Clean Water Act permits are required.
- WBTW has already provided CBP with the results of cultural/historical assessment that has been performed concerning the proposed project area.
 - WBTW should provide any correspondence or feedback it has received from the New Mexico State Historic Preservation Officer concerning such assessment and the potential impacts of the proposed project.
- As to other potential environmental obligations, as has been discussed, CBP may be required to comply with the National Environmental Policy Act, the Endangered Species Act, or other environmental statutes in accepting a gift or authorizing construction on federal property. WBTW's donation intent should discuss whether it has the ability to assist with such compliance by CBP. Such assistance would likely come in the form of, among other things, providing project information, conducting additional resource surveys of the project area, or providing a consultant to assist in the preparation of required environmental documents.

CONSTRUCTION CLOSE-OUT

Finally, as a part of its submission WBTW should include or discuss the items that will be provided once construction is complete.

- Final construction close-out package shall be provided by the construction contractor prior to acceptance of the project and consideration for acceptance by CBP. The construction close out package shall include, but not be limited to:
 - Results of all materials testing conducted by a third party consultant.

- Certification that quality assurance was conducted by an independent third party consultant and associated documentation.
- Shop and fabrication drawings.
- Final as-built plans certified by the contractor including, but not limited to, final surveyed location of the wall, plans, profiles, notes and details.

ENCLOSURES:

1. DHS GIFT DONATION FORM 112-02
2. (b) (7)(E) MAP
3. PROJECT RENDERING

Should you have questions or concerns, please do not hesitate to reach out to our team – Chief Martin or DXD (b)(6);(b)(7)(C) CC'd here – who will address your questions and coordinate any additional communications with me.

**GIFT DONATION FORM
DEPARTMENT HOMELAND SECURITY**

This form must be completed upon receipt of a gift offer and forwarded to:

**Chief Administrative Officer
Department of Homeland Security
Washington, DC 20528**

The following gift was offered to the Department of Homeland Security:

Description of gift: *Please ensure that the donor of the property understands that this property is given to the Department of Homeland Security and will become the property of the United States Government. Also, the donor must understand this donation is irreversible and the donor will retain no personal rights of use, ownership, or possession.*

Donor's Name: We Build the Wall

Donor's Full Address: 9300 Emerald Coast Parkway W.
Miramar Beach, FL 32550

Present/past business with the Department: N/A

Circumstances regarding donation of gift: We B seeks to construct (b) (7)(E) section of border wall a (b) (7)(E) extending the existing wall to the (b) (7)(E)

How gift will aid and facilitate the Department's mission This new section of border wall will close off one of the most heavily trafficked human- and drug-smuggling corridors in the El Paso Sector, improving border security.

Gift Value: _____ if non-cash, list the donor's estimated fair market value: \$8,000,000.

Note: The value listed above is the donor's estimate, whether by fair market value or appraised value. The Department of Homeland Security does not confirm or endorse this as the value of the gift nor make any representation of the value of this gift for any tax purpose.

Restrictions on the use of the gift: None. We Build the Wall would like to have access to the wall in the future for events and to add commemorative plaques or bricks.

Pending Matters/Activities: Please indicate below any matters pending or likely to arise in the future that might involve the donor or the donor's organization. Give consideration to all individuals or members of an organization (if applicable) involved in the donation of this gift:
None.

Identify the Department of Homeland employee who received the gift donation and under what circumstances: It would not be given to a single employee. Rather it would belong to DHS/CBP as a whole.

If the gift was solicited, indicate the date of approval by the Secretary/Deputy Secretary:
N/A

I have determined that the acceptance of this gift is appropriate in accordance with the current Directive and accept the offer on behalf of the Department of Homeland Security

(b)(6);(b)(7)(C),

Thanks for your follow up email.

Let's see if you, Brian, and I can find a time to talk on the phone tomorrow. Per my conversations with Brian in November and December, I think we are pretty close to satisfying all of the elements of the checklist. We are just waiting for our historical impact study to be completed.

(b) (5)

I have attached an image of the site. The proposed border barrier would go where the blue line is drawn.

At what times might you two be available tomorrow?

Kris

Kris,

In response to your inquiry last week about (b) (7)(E) the attorneys and I touched base again today. It

(b) (5), (b) (7)(E)

As to the criteria DHS/CBP would use to evaluate WBTW's donation package, including any aspect that would include construction in the Roosevelt Reservation, I would point you back to the checklist we provided to WBTW during our August 27, 2019 meeting. The checklist provides detailed recitation of the factors DHS/CBP would consider in evaluating the donation package. For example, to the extent that WBTW will be constructing on private land, DHS/CBP would be looking at things like evidence of ownership, whether Phase I environmental assessment has been formed, what it shows, etc. It also goes without saying that construction should meet DHS/CBP operational requirements. Here again, the checklist we previously provided includes a detailed recitation of the design specifications that would guide DHS/CBP's evaluation of the proposed donation.

Let me know if you have any questions once you've had some time to digest.

Best,

(b)(6);(b)(7)(C)

I just received a call from Kris Kobach and he had a few more questions. He feels confident they will meet our requirements provided we verify real estate for UPRR access and Roosevelt easement.

Subject: RE: We Build the Wall (b) (7)(E) Project Proposal

Sir,

The team has reviewed the We Build The Wall (WBTW) checklist. I appreciate your patience as we've carefully gone through each of the items. Below are the following issues captured by the team:

- <!--[if !supportLists]-->1. <!--[endif]-->Real Estate: CBP does not concur with WBTW's assessment. DHS does not own all of the land in this area. Additionally, access roads are an agreement between private landowners and DHS, and would not be transferable to WBTW. WBTW would need to obtain separate access with private land owners. Documentation is needed for real estate. The attached document is CBP's assessment on land ownership.
- <!--[if !supportLists]-->2. <!--[endif]-->Environmental: WBTW needs to provide documentation on all environmental findings and agreements with SHPO. Previous project environmental impacts (i.e. 2008) or similar projects in the area (i.e. WBTW project at (b) (7)(E)) cannot be used as justification for environmental clearance. All environmental clearances must be project site specific. The statement in the checklist regarding contaminants is not acceptable and needs to be conducted by WBTB.
- <!--[if !supportLists]-->3. <!--[endif]-->The wall should be (b) (7)(E) feet as noted in the checklist
- <!--[if !supportLists]-->4. <!--[endif]-->The wall should be (b) (7)(E) feet as noted in the checklist
- <!--[if !supportLists]-->5. <!--[endif]-->IBWC coordination is required and not noted in the checklist, to include hydrology coordination and international boundary survey's prior to construction.
- <!--[if !supportLists]-->6. <!--[endif]-->Gates are required at all IBWC monuments per TI standards (2 to 3 monuments may be in this area)
- <!--[if !supportLists]-->7. <!--[endif]-->It was stated that fill sections will be filled with "processed fill" – need confirmation that this will be "certified clean fill" as per environmental needs.
- <!--[if !supportLists]-->8. <!--[endif]-->Need an explanation on the "N/A" response from WBTW regarding Procurement process.
- <!--[if !supportLists]-->9. <!--[endif]-->Need explanation on how WBTW will (b) (7)(E) (b) (7)(E) when talking about (b) (7)(E)

Please consider these concerns and let me know if you have time to discuss.

Have a great weekend,

Kris,

Thank you for the call this morning. As I'm sure you can understand, we are extremely busy right now, however we appreciate all the work your team has put into the documents.
Our projects team and legal are currently reviewing the documents you sent over. We will be meeting mid-next-week and will be able to follow up after we have determined a path forward.

Thank you for your patience.
Brian

Dear Brian, (b) (6);(b) (7)(C), and Deputy Commissioner Perez,

It was a great pleasure meeting with you a few weeks ago. Please find attached our responses to the items in the CBP checklist for the proposed (b) (7)(E) wall extension that We Build the Wall (WBTW) has proposed to build at the (b) (7)(E) area in New Mexico and give to CBP. I have also attached a hydro analysis and other supporting documents. We will meet virtually all of the CBP requirements; and where we propose slight modifications, it is because of special circumstances at the (b) (7)(E) site.

Please let me know as soon as possible if you need any additional information prior to granting us permission to proceed. As I may have mentioned in our meeting, we have much of the heavy equipment in the area already. We will save nearly half a million dollars in mobilization costs if we can proceed soon – ideally by October 11 if possible.

Thanks again for meeting with us. We look forward to constructing and donating a gift to CBP that meets all of your operational needs and greatly improves the security what is currently a heavily-trafficked border area.

Yours,

Kris Kobach

WBTW ANSWERS TO CBP BARRIER CECKLIST - (b) (7)(E) PROJECT

NUMBER

ANSWER

- 1 Ownership - N/A (land is already owned by DHS according to county records).
- 2 Roosevelt Reservation - The western portion of the parcel is wider than the Roosevelt Reservation; the eastern portion is the same width as the Reservation.
- 3 Access - DHS is the agency that owns the parcel; no other agency controls access to parcel.
- 4 Private land deed of transfer - N/A.
- 5 Title Search - N/A.
- 6 Staging area - The wider western portion of the parcel will be the staging area. It is already owned by DHS. No other agency permission is necessary.
- 7 Private land deed of transfer - N/A.
- 8 Private land temporary easement - N/A.
- 9 Private land permanent easement - N/A.
- 10 Rio Grande River flood impact - N/A.
- 11 Permits re waters of the United States - N/A; see hydro analysis, attached.
- 12 NEPA - No federal or state permits are required on this site. It should be noted that, because the project extends existing barrier that was built in 2008 to the (b) (7)(E) by only (b) (7)(E), the same environmental impacts (or lack thereof) in 2008 should apply to the proposed extension of the existing barrier. It should also be noted that the barrier would remain open on the (b) (7)(E) end, so any animals unable to move between the bollards could continue to walk around the (b) (7)(E) end of the project. Finally, with respect to historical preservation, the SHPO has been contacted and informed of proposed project. The SHPO found no adverse impact to historical sites with the construction of the WBTW project (b) (7)(E) (b) (7)(E).
- 13 Environmental site assesment for contaminants - This property is already owned by DHS. Any existing contaminants would already be a matter of DHS responsibility.
- 17 CBP TI design standards - Agreed; WBTW will construct to CBP TI design standards.
- 18 ICC IBC risk category - Agreed; engineer will do so.
- 19 Load combinations - Agreed; engineer will do so.
- 20 Offset from border - Due to the rugged surface condition we will have (b) (7)(E) offset.
- 21 Height - We will match the existing fence height of (b) (7)(E).
- 22 (b) (7)(E).
- 23 Color - The wall will not be painted, in order to match existing adjacent wall.
- 24 Ponding - Agreed; ponding will not occur.
- 25 Deterrent to under-digging - Agreed; (b) (7)(E).
- 26 Spacing - Agreed (b) (7)(E) spacing between bollards will be used.
- 27 Drainage - Agreed to a, b, and c.
- 28 No levee walls - N/A.
- 29 Foundation design - Agreed. We will overex and recompact on grade-and-cut sections. Fill sections will be made with processed fill.
- 30 Debris removal - Agreed.
- 31 Coordination with USBP Wall PMO - Agreed.
- 32 Design report - Agreed.
- 33 Contractor meeting with Wall Program Team - Agreed.
- 34 Closeout package - a. We will use licensed third party. B. Agreed. C. Agreed. D. We will provide final redlined as built.
- 35 Congressionally imposed restrictions - Agreed. A. N/A.
- 36 Gifts - Agreed.
- 37 DHS gifts - Agreed.
- 38 Procurement process - N/A.
- 39 (b) (7)(E).
- 40 Time to cross - Agreed.
- 41 Deterrent to under-digging - (b) (7)(E).
- 42 (b) (7)(E).
- 43 (b) (7)(E) (b) (7)(E).
- 44
- 45 Agent access - We will meet requirements a., b., and c.
- 46 Surveillance interoperability - We will meet requirements a. and b.
- 47 Reliability - The wall system will significantly exceed the objective of 20 years.

Attn: (b) (6)
Legal Counsel, We Build The Wall

RE: Bollard Project; (b) (7)(E) New Mexico

Subject: Drainage Report for (b) (7)(E)

Greetings,

Please be advised that upon completion of this Project all of the off-property drainage patterns and capacity at this site will continue to allow for the free passage onto, through and continuing downslope from this site. No significant volumes of drainage will be blocked by the installation of the new bollard fence and the small amount of additional on-site drainage that sheet flows from the new road surface to the south will not significantly increase the volumes handled by the existing washes.

Our review of the topography indicates that there are three small watersheds, each of which will contribute flow to drainages that will cross south into Mexico. We will construct low-flow crossings at the three identified outlet locations. The length of these low-flow crossings will be determined by the volume of flow calculated for the 50 year event to pass through the spacing in the bollard fence system. Each watershed will drain to it's own corresponding low-flow crossing.

Thank you for your time regarding this issue. Please feel free to call if you have any questions or require any additional information.

Regards,
(b) (6) (b) (6)
Civil Engineer

Cc: (b) (6) President, FSG, TGR

ATTACHMENT: We Build The Wall; Project at (b) (7)(E)
September 18, 2019

LETTER dated

i = 3.23 inches/hour for the 50 year 30 minute event. Please see attached table from NOAA Atlas 14, Volume 1, Version 5.

Velocity over sand & gravel bottom (slope average 5-15%) is determined to be 4 ft./sec.

| CCR area | surface | C | A(ac.) | Q (cfs) |
|----------|------------|-----|--------|---------|
| W1 | rocky soil | 0.2 | 8.3 | 5.39 |
| W2 | rocky soil | 0.2 | 2.8 | 1.81 |
| W3 | rocky soil | 0.2 | 2.0 | 1.28 |

The peak flow rates for these three watersheds has been determined as listed above for the 50 year event. These flow rates will be handled by the existing washes and tributaries and will pass through the bollards at the appropriately sized low-flow crossings.

Mr. Martin,

Thanks for your message. We would be happy to meet with your team in DC on one of the dates proposed. Although either date would work, the most convenient would be Tuesday the 27th of August at around 2 PM. (That would give us time to fly in to DC the same day.) But if that specific time doesn't work, let me know; we can choose another time that works.

We would bring a fairly small group: just me, my fellow attorney (b)(6) and our construction foreman (b)(6). We should be able to address any legal, site selection, or design-related issues you wish to discuss. If you think we should come prepared to discuss other matters and should bring other team members please let me know.

I look forward to seeing you in August.

Subject: RE: U.S. Customs and Border Protection Deputy Commissioner

Mr. Kobach,

In keeping with the commitment made in the letter sent from CBP's Deputy Commissioner Robert Perez, I am following up to offer an opportunity to meet with *We Build the Wall* in person in Washington DC. Are you available to meet

the week of August 26th on either the 26th or the 27th? We are flexible as to the time based on your availability. We appreciate your continued interest in border security and the role that physical barriers play in assisting U.S. Border Patrol operations.

Between now and the proposed meeting date, as explained by the Deputy Commissioner, we will be working to complete both a review of the already constructed border barrier in (b) (7)(E), New Mexico as well as to develop a checklist to be made available to organizations, such as yours, that seek to construct a private border barrier with the intention of donating it to the Government. As you are aware, as the Federal government we have myriad requirements we must meet in order to receive a donation such as this, characterized by the list we provided in our prior letter.

Ensuring that any interactions we have with private organizations do not jeopardize other ongoing work is one critical requirement. While we are happy to continue our discussions with *We Build the Wall*, we must guard against perceived or actual conflicts of interest with any vendor that may bid on work through the competitive process. As we understand it, Fisher Industries serves as *We Build the Wall*'s vendor. We would ask that any future communications be addressed from *We Build The Wall* principles or staff, as opposed to Mr. Fisher or others associated with his company. This limits the risk that other vendors may perceive Fisher Industries to have an unfair advantage in bidding on other border wall work, such as the work they have actively pursued through the CBP's service provider, the U.S. Army Corps of Engineers. We would ask that you pass this request on to your vendor and request they cease contact with U.S. Border Patrol and support POCs as it pertains to construction undertaken by *We Build the Wall*. Should Fisher Industries have questions or comments regarding other ongoing work, they can always reach out through the normal communications channels available to them through CBP's Office of Acquisition and the U.S. Army Corps of Engineers. That said, we welcome continued contact with you and your counterparts from the *We Build the Wall* organization and look forward to meeting you the week of August 26.

Subject: Re: WBTW Permitting Question

Brian,

Thanks for your message. I think you are referring to my discussion with Deputy Commissioner Perez regarding the future control of the section of wall we already constructed. In that case, we have already granted to DHS and recorded with the county a permanent easement to the wall and a (b)(7)(C) strip that it is on. That would not be revocable and should suffice to allow the Border Patrol to make any changes it wishes. If the Border Patrol wishes to gain additional control of that section we are more than happy to discuss it.

We are flexible with how we approach each project and ultimately want to best assist the Border Patrol in it's mission. So, for example, at (b)(7)(E) DHS already owns the land outright. We would simply be coming on site, building, then leaving a gift to the Border Patrol.

Please let me know if you have follow up questions. Hopefully we will have a chance to meet soon.

Yours,
Kris

On Jul 24, 2019, at 4:39 PM, MARTIN, JERRY B

<(b)(6);(b)(7)(C)> wrote:

Mr. Kobach,

As I understand it from Deputy Commissioner Perez, you raised a question regarding the possibility of building barriers on land permitted by the (b)(7)(E) to

build. Without detailed and specific background on this issue, we had to make some assumptions in answering the inquiry – most notably that the final goal of any construction would be, as previously stated by We Build the Wall, to donate the final product to the government.

Unfortunately, if the intent is to donate the completed wall to the government, a temporary interest such as a permit would likely not be sufficient. CBP acquires permanent real estate interests to support construction and long-term maintenance of border wall. There are numerous reasons for this, including the fact that acquiring a permanent interest in the real estate ensures that CBP will have permanent access to the barrier as well as the ability to quickly and effectively maintain the barrier, especially when emergency repairs are needed to safeguard the integrity of the barrier itself. Additionally, acquiring a permanent real estate interest also allows CBP to make future modifications to the barriers without seeking additional permission from the landowner. For instance, CBP could install additional or new (b) (7)(E)

(b) (7)(E) without having to seeking additional permission or consent from the private landowner. In contrast, acquiring a permit or license from a private landowner has significant shortcomings. As an example, permits and licenses are generally not considered to be real estate interests, therefore, they typically can be revoked by the person granting the license. Revocation of the license also would terminate CBP's ability to maintain the infrastructure, thus shortening the life cycle of the barrier.

That said, we made some assumptions in answering this question. If there is other information that would be helpful or you believe might change the outcome, we would be happy to continue exploring to ensure we adequately address the question posed.

operations.

Between now and the proposed meeting date, as explained by the Deputy Commissioner, we will be working to complete both a review of the already constructed border barrier in (b) (7)(E), New Mexico as well as to develop a checklist to be made available to organizations, such as yours, that seek to construct a private border barrier with the intention of donating it to the Government. As you are aware, as the Federal government we have myriad requirements we must meet in order to receive a donation such as this, characterized by the list we provided in our prior letter.

Ensuring that any interactions we have with private organizations do not jeopardize other ongoing work is one critical requirement. While we are happy to continue our discussions with *We Build the Wall*, we must guard against perceived or actual conflicts of interest with any vendor that may bid on work through the competitive process. As we understand it, Fisher Industries serves as *We Build the Wall*'s vendor. We would ask that any future communications be addressed from *We Build The Wall* principles or staff, as opposed to Mr. Fisher or others associated with his company. This limits the risk that other vendors may perceive Fisher Industries to have an unfair advantage in bidding on other border wall work, such as the work they have actively pursued through the CBP's service provider, the U.S. Army Corps of Engineers. We would ask that you pass this request on to your vendor and request they cease contact with U.S. Border Patrol and support POCs as it pertains to construction undertaken by *We Build the Wall*. Should Fisher Industries have questions or comments regarding other ongoing work, they can always reach out through the normal communications channels available to them through CBP's Office of Acquisition and the U.S. Army Corps of Engineers. That said, we welcome continued contact with you and your counterparts from the *We Build the Wall* organization and look forward to meeting you the week of August 26.

VR,

Brian Martin

Mr. Kobach,

Good afternoon. My name is (b)(6);(b)(7)(C) and I am the Special Assistant to U.S. Customs and Border Protection Deputy Commissioner Robert E. Perez. Attached you will find a letter for your reference, please note an original is being mailed to you as well. A CBP team will be reaching out to you soon to discuss this topic further. In the interim the Deputy Commissioner asked that I relay that

he is available to speak with you at your convenience, should you have any questions or concerns.

Please feel free to contact me directly and I will be happy to coordinate further.

Thank you,

(b)(6);(b)(7)(C)

Special Assistant to the Deputy Commissioner

Subject: Re: WBTW Permitting Question

Brian,

Thanks for your message. I think you are referring to my discussion with Deputy Commissioner Perez regarding the future control of the section of wall we already constructed. In that case, we have already granted to DHS and recorded with the county a permanent easement to the wall and a (b) (7)(E) strip that it is on. That would not be revocable and should suffice to allow the Border Patrol to make any changes it wishes. If the Border Patrol wishes to gain additional control of that section we are more than happy to discuss it.

We are flexible with how we approach each project and ultimately want to best assist the Border Patrol in it's mission. So, for example, at (b) (7)(E) DHS already owns the land outright. We would simply be coming on site, building, then leaving a gift to the Border Patrol.

Please let me know if you have follow up questions. Hopefully we will have a chance to meet soon.

Yours,
Kris

Mr. Kobach,

As I understand it from Deputy Commissioner Perez, you raised a question regarding the possibility of building barriers on land permitted by the [REDACTED] (b) (7)(E) to build. Without detailed and specific background on this issue, we had to make some assumptions in answering the inquiry – most notably that the final goal of any construction would be, as previously stated by We Build the Wall, to donate the final product to the government.

Unfortunately, if the intent is to donate the completed wall to the government, a temporary interest such as a permit would likely not be sufficient. CBP acquires permanent real estate interests to support construction and long-term maintenance of border wall. There are numerous reasons for this, including the fact that acquiring a permanent interest in the real estate ensures that CBP will have permanent access to the barrier as well as the ability to quickly and effectively maintain the barrier, especially when emergency repairs are needed to safeguard the integrity of the barrier itself. Additionally, acquiring a permanent real estate interest also allows CBP to make future modifications to the barriers without seeking additional permission from the landowner. For instance, CBP could install additional or [REDACTED] (b) (7)(E) without having to seeking additional permission or consent from the private landowner. In contrast, acquiring a permit or license from a private landowner has significant shortcomings. As an example, permits and licenses are generally not considered to be real estate interests, therefore, they typically can be revoked by the person granting the license. Revocation of the license also would terminate CBP's ability to maintain the infrastructure, thus shortening the life cycle of the barrier.

That said, we made some assumptions in answering this question. If there is other information that would be helpful or you believe might change the outcome, we would be happy to continue exploring to ensure we adequately address the question posed.

Kris,

In response to your inquiry last week about (b) (7)(E) the attorneys and I touched base again today. It

(b) (5), (b) (7)(E)

As to the criteria DHS/CBP would use to evaluate WBTW's donation package, including any aspect that would include construction in the Roosevelt Reservation, I would point you back to the checklist we provided to WBTW during our August 27, 2019 meeting. The checklist provides detailed recitation of the factors DHS/CBP would consider in evaluating the donation package. For example, to the extent that WBTW will be constructing on private land, DHS/CBP would be looking at things like evidence of ownership, whether Phase I environmental assessment has been formed, what it shows, etc. It also goes without saying that construction should meet DHS/CBP operational requirements. Here again, the checklist we previously provided includes a detailed recitation of the design specifications that would guide DHS/CBP's evaluation of the proposed donation.

Let me know if you have any questions once you've had some time to digest.

Best,

To: (b)(6);(b)(7)(C); (b)(6);(b)(7)(C)
Subject: RE: U.S. Customs and Border Protection Deputy Commissioner

Ms. (b)(6);(b)(7)(C)

Thanks for emailing the letter to me. I wanted to get back to you right away about one matter though. There appears to be a miscommunication. The Perez letter says that 5 land owners own border land between (b)(7)(E) NM and Texas. That is correct. However we are only referring to the land that is owned by the United States of America and starts at (b)(7)(E) and ends at (b)(7)(E).

County tax records clearly show that to be the property of the United States government. See below. The narrow strip in blue is listed as property of the United States as is the (b)(7)(E). Could you please have the relevant CBP people review this and either confirm those records to be correct or let us know if you believe these county records to be wrong.

Assuming that can be done within a day so we have the correct information I would like to speak with Mr Perez tomorrow at a time that suits him. Please let me know any times that might work.

Thank you for your assistance.

Kris Kobach

Subject: U.S. Customs and Border Protection Deputy Commissioner

Mr. Kobach,

Good afternoon. My name is (b)(6);(b)(7)(C) and I am the Special Assistant to U.S. Customs and Border Protection Deputy Commissioner Robert E. Perez. Attached you will find a letter for your reference, please note an original is being mailed to you as well. A CBP team will be reaching out to you soon to discuss this topic further. In the interim the Deputy Commissioner asked that I relay that he is available to speak with you at your convenience, should you have any questions or concerns.

Please feel free to contact me directly and I will be happy to coordinate further.

Thank you,

(b)(6);(b)(7)(C)
Special Assistant to the Deputy Commissioner

Ms. (b) (6), (b)

Thanks for emailing the letter to me. I wanted to get back to you right away about one matter though. There appears to be a miscommunication. The Perez letter says that 5 land owners own border land between (b) (7)(E) NM and Texas. That is correct. However we are only referring to the land that is owned by the United States of America and starts at (b) (7)(E)

County tax records clearly show that to be the property of the United States government. See below. The narrow strip in blue is listed as property of the United States as is the (b) (7)(E). Could you please have the relevant CBP people review this and either confirm those records to be correct or let us know if you believe these county records to be wrong.

Assuming that can be done within a day so we have the correct information I would like to speak with Mr Perez tomorrow at a time that suits him. Please let me know any times that might work.

Thank you for your assistance.

Kris Kobach

see attached.
